

To Whom it may concern, please consider my desire to have the FCC reject the NAB's petition 04-160 and allow XM radio to provide the programming that I desire. Since this is a subscription service, I feel strongly that they have the right to offer what ever services they would like to offer to it's subscribers. I am a professional truck driver and utilize the traffic and weather channels extensively as well as all the other great channels. I feel that the satellite radio format has benn one of the BEST things to happen to radio listening since radio came about. PLEASE DO NOT LET THE GOVERNMENT SCREW SOMETHING ELSE UP BECAUSE SOMEONE INVENTED A BETTER WHEEL AND THE ONES LEFT BEHIND ARE CRYING ABOUT IT. LEAVE XM SATELLITE RADIO ALONE, PLEASE.
